### Reasons For Allowance

Claims 38 – 64 are allowable.

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims the prior arts made of record fail to suggest a delta-sigma analog-to-digital converter circuit having a variable oversample ratio, the circuit comprising: a decoder for decoding a first digital signal into a second digital signal having a number of bits according to the number of oversample ratios allowed by the delta-sigma analog-to-digital converter; and a digital filter for generating a third digital signal from the second digital signal, wherein a portion of the third digital signal provides a digital output for the delta- sigma analog-to-digital converter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
